-MBOAR-

Mangalitsa Breed Organization And Registry

- USA -

What have we been up to?

The organization made up entirely of volunteers has been working hard at registering pigs to build the herd book & at making all processes smoother running for our members.

MBOAR has recently introduced a new lifetime membership option. The lifetime membership is \$1250 for 15 years. The membership is valid only for the sole member registering and isn't generational.

The mangalitsa pig & the organization was recently featured to share some education in the July/August issue of Hobby Farms Magazine.

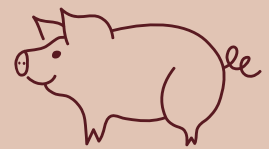

Currently behind the scenes MBOAR is working to integrate a new registration software that makes things easier for our members. We hope to have this new software running by the end of the year.

See the benefits on next page

What's New?
